To,

Central Forest Right Committee,
Government of India,

Sir,

We are the tribal people of this area, residing and occupying this land for many years. Even though this land is eligible to get us as per the Central Forest Right Act, the State Authorities are not at all allotting this land to us. We have given our application for land in the prescribed form. We are here for the land struggle about 180 days. So we request the Committee to allot this land to the struggling landless tribal people under the provisions of this Act.

This is for your kind information and necessary action please.
